EXPERIENCE

Software Developer | Full Time Freelancer | 2012 - Present

I have been working as a freelance developer, fulltime, for over 8 years now.

Due to my nature of employment as self-employed software developer, I have worked on more than a dozen projects. Sometimes I am working full time for a single time. Other times, I am working for multiple clients, big and small.

The same applies to my training experience also. I have done everything from private one to one training to on stage university grade students classroom training.

Note: I have included experience of my 2 recent projects. Detailed work experience available online - https://stackoverflow.com/story/vijayasimhabr
